

PURITAN PRODUCTS

CHEMICAL BLENDING EXPERTISE

Quality • Consistency • Confidence

Pharmaceutical and
Biopharmaceutical Capabilities

The Puritan Promise

Promises are based on expectations. Our promise is a value-added ingredient embedded in our foundation of blending total customer satisfaction, scientific professionals, and sustainable manufacturing solutions. A promise is delivered only through performance. At Puritan...made good every day.

As a customer-centric, quality-driven organization, this promise is our guarantee that your complete satisfaction is the only acceptable measurement of our products and services.

Puritan Products provides **high-purity chemicals** and **chemical blends** for customers who demand the highest levels of purity. Our collaborative approach with customers facilitates short development time for **custom products** which ensures **quick response** to even the most demanding sourcing requirements, while providing **security, transparency** and **risk mitigation** in the raw material supply chain.

World Class Quality Systems

Puritan Products has demonstrated the ability to meet the stringent requirements of our customers by establishing world class quality systems, which integrate robust internal processes in conjunction with:

- cGMP
- ISO 9001
- USP-Validated Water System

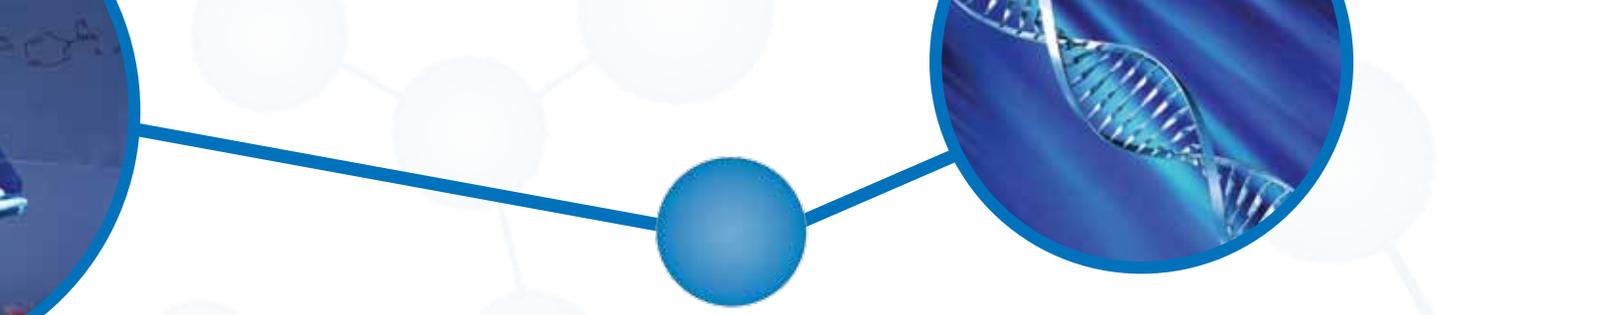

As a testament to our ability to meet your quality requirements, our customer base includes the world's largest pharma and biopharma companies. Puritan Products' systems and facilities have been **rigorously audited** and have passed 100 percent of our customers' compliance audits.

As a **cGMP-compliant** company, Puritan Products employs the quality systems and documentation that make us a viable supplier to those markets that are monitored and regulated by the global pharmaceutical regulatory agencies.

As an **ISO-9001 certified** company, we are committed to meeting the highest industry standards, which also broadens our quality systems to provide enhanced quality to those products where a compendial monograph does not exist.

Puritan Products' analytical capabilities in our state-of-the-art laboratory assure that you receive **consistent, reproducible, reliable** products...today, tomorrow, and in the future.

Consistency

Providing a product that just meets specifications does not define consistency. At Puritan Products, we leverage our vast analytical capabilities and extensive quality management systems to ensure that your products are consistent from lot-to-lot, and year-to-year.

Our confidence in making this claim comes from the combination of cGMP, ISO, and our internal quality practices, in conjunction with proven [continuous improvement](#) tools that ensure tight control of our manufacturing processes:

- Six Sigma
- Lean manufacturing
- 5S

Confidence

Our comprehensive [Management of Change](#) program provides the [risk mitigation](#) and supply chain security to meet even the most demanding standards. This is enhanced through the use of:

- Domestic manufacturing
- Supplier audits of primary and secondary suppliers
- Dedicated manufacturing equipment that is designed and manufactured in-house

Our processes have been challenged by some of the world's largest companies and our confidence comes from knowing that we have consistently met or exceeded their demanding requirements. If you need to [reduce your internal costs](#) of manufacturing, improve your [supply chain security](#) or minimize the risk to your supply chain, you can rely on Puritan Products.
