

GMP / Compendial Products

Chemicals and Chemical Blends

Puritan Products, a GMP compliant and FDA registered chemical manufacturer, currently supplies solutions and chemical blends in various batch sizes and concentrations to many Fortune 500 pharmaceutical and biopharmaceutical companies. If you can't find the solution you are looking for, let our technical resources help you get the product, solution, or blend that you need. Call or go to our website at www.puritanproducts.com/literature.

PURITAN PRODUCTS

CHEMICAL BLENDING EXPERTISE

Quality • Consistency • Confidence

GMP / Compendial Products

If you need GMP manufacturing, lot-to-lot consistency, reduction of internal costs, and supply chain security, let us manufacture your custom blend, pH buffer or conductivity standard using your preferred raw materials and packaging. Puritan Products is the only company in the industry to manufacture pH buffers and conductivity standards under the auspices of cGMP. Aqueous solutions use USP Purified water and are tailored to meet your needs. Examples of the solutions we have made for some of the world's largest pharmaceutical and biopharmaceutical companies are below.

- pH Buffers
- Conductivity Standards
- Acid Solutions
 - Acetic Acid
 - Citric Acid
 - Hydrochloric Acid
 - Peracetic Acid
 - Phosphoric Acid
 - Sulfuric Acid
 - Nitric Acid
- Base Solutions
 - Ammonium Hydroxide
 - Potassium Hydroxide
 - Sodium Hydroxide
- Salt / Buffer Solutions
 - Sodium Acetate
 - Ammonium Chloride
 - Sodium Bicarbonate
 - Potassium Phosphate
 - Potassium Carbonate
 - Sodium Bisulfate
 - Sodium Chloride
 - Sodium Phosphate
- Acid / Solvent Blends
- Acid / Alcohol Blends
 - Hydrochloric / IPA
 - Acetic Acid / Ethanol
 - Nitric Acid / Methanol
- Solvent / Solvent Blends
