

## Specification

### Sodium Hydroxide 10.00 N Solution

#### BioPUR™ NIST Traceable

<u>Property</u>	<u>Specification</u>
Nitrogen Compounds (ppm)	3 ppm maximum
Assay Normality	9.95-10.05N
Appearance	Clear, colorless liquid
Identification	Pass Test

This standard was checked by means of Potassium Hydrogen Phthalate, which is traceable to Standard Reference Material 84 of NIST (National Institute of Standards and Technology, USA)
